

# UC San Diego Department of Structural Engineering 3+2 Program in Engineered Structures

UC San Diego  
JACOBS SCHOOL OF ENGINEERING  
Structural Engineering

LEARN : INNOVATE : INSPIRE

## Program Information

The **3+2 Program in Engineered Structures** invites all partner institution third-year undergraduate students interested in Aerospace, Civil, and Mechanical Engineering to apply. Students will spend two years at UC San Diego, earning a B.S. degree from their home institution (after Year 1) and followed by an M.S. degree in Structural Engineering from UC San Diego (after Year 2). UC San Diego offers diverse focus sequences and degree specializations in **Civil Structures, Geotechnical Engineering, Structural Health Monitoring & Nondestructive Evaluation, Aerospace Structures, and Computational Mechanics.**

### Eligibility & Requirements

- ❑ Apply in the 3<sup>rd</sup> year of undergrad
- ❑ Minimum of **3.25 GPA**
- ❑ Statement of purpose essay
- ❑ Two letters of recommendation
- ❑ Certificate of proficiency in English: TOEFL iBT > 85; TOEFL paper > 550; or IELTS > 7
- ❑ **Application Deadline: February 15**

### Why Apply?

- ❑ Experience life as an undergrad in a top-ranked U.S. University
- ❑ Earn a B.S. degree while studying in the U.S.
- ❑ Access to world-class faculty and facilities
- ❑ Get a head start on your graduate program
- ❑ Network with Southern California companies
- ❑ Live in sunny San Diego
- ❑ Streamlined advanced degree with conditional enrollment in the M.S. program
- ❑ GRE waived
- ❑ Early access to funded Instructional Assistant and summer internship positions
- ❑ Jumpstart your M.S. research early
- ❑ Seamless transition to the Ph.D. program
